

City of Lancaster Green Infrastructure Walking Tour

Lancaster has implemented many green infrastructure projects over the years. They have graciously offered to lead a tour of several of them on the day before the PWEA Stormwater Conference, *Designing, Building, and Maintaining Pollutant Reduction Facilities*, which will be held on Thursday, October 11, 2018, at the Lancaster Farm and Home Center.

Tour Date: Wednesday, October 10, 2018
Tour Time: 3:00 – 5:00 p.m.
Meeting Place: Lancaster Brewing Company, 302 N. Plum St, Lancaster, PA 17602
(We'll walk to the GI sites from here.)
Parking: Street parking is available along Plum, Walnut, and Fulton Streets.
Cost: Free! You can add this tour to your conference registration at no charge. RSVPs are requested.

Rain or Shine – wear comfortable shoes and bring an umbrella if needed.

The tour will conclude at around Happy Hour, back at the Lancaster Brewing Company, the location of the much-publicized traffic/GI project (see the attached project description). Join your Stormwater colleagues for some Pumpkin Pie Ale and conversation!

Please let Cindy Rock know that you are planning to attend, so we know how many to expect. You can email her at: cindyrock@pwea.org.
